All work must include before and after photographs to support the documentation provided to the DLBA. All photos should adhere to the DLBA standards indicated in this document.

The DLBA reserves the right to require vendors to upload photographs and/or information on completed work in the DLBA’s proprietary system or transmitted through a link provided by the DLBA. 1. **Detailed Mowing (Weekly/Bi-Weekly)**- Includes edging, string-trimming, blowing and/or vacuuming.

      - Mower blades will be kept sharp at all times to prevent blade tearing.
      - Turf growth regulators may be used to assist in maintaining a consistent and healthy appearance of the turf.
• Various mowing patterns will be employed to ensure the even distribution of clippings and to prevent ruts in the turf caused by mowers. Grass clippings will be left on the lawn to restore nutrients, unless excess clippings create an unsightly appearance.
• Turf will be cut to a desirable height with no more than 1/3 of the leaf blade removed during each mowing to enhance health and vigor.

b. Edging & Trimming
• Contractor will neatly edge and trim around all plant beds, curbs, streets, trees, buildings, etc. to maintain shape and configuration.
• Edging equipment will be equipped with manufacturer’s guards to deflect hazardous debris.

• String trimming shall be performed as needed.
• Areas mutually agreed to be inaccessible to mowing machinery will be maintained with string trimmers or chemical means, as environmental conditions permit.
